

Healthcare Surfaces Summit 2026

Not a Meeting. A Movement.

ISSA Headquarters in
Rosemont, IL

May 5-6, 2026

About the Conference

The Summit isn't just another healthcare conference—it's where leading experts, industry innovators, and scientists come together to **turn inspiration into measurable action**. Designed as a catalyst for real change, the summit moves beyond discussion to **identify gaps, spark collaborative research, and launch task forces** dedicated to advancing patient safety and improving healthcare environments. With its focus on action, collaboration, and year-round impact, this dynamic event equips attendees—and partners—with the strategies and connections to drive lasting improvements across the industry.

Who Will You Reach?

This exclusive event brings together a **select group of healthcare professionals and thought leaders**, with attendance limited to **no more than 120 participants**. Sponsors will connect directly with a carefully curated mix of **building service contractors, manufacturers, hospital professionals, nurses, infection preventionists, environmental service leaders, value analysts, and facility managers**. Intimate by design, the summit ensures meaningful interactions with influential decision-makers who are shaping the future of patient safety and healthcare environments.

More than visibility, sponsorship is your gateway to cross-disciplinary collaboration and direct access to key decision makers.
